

## User Guide

### VTP

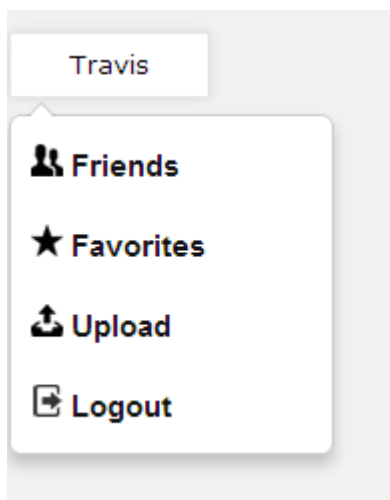

## Login

Once a user reaches the site they will be able to login with their Facebook or Google Account.

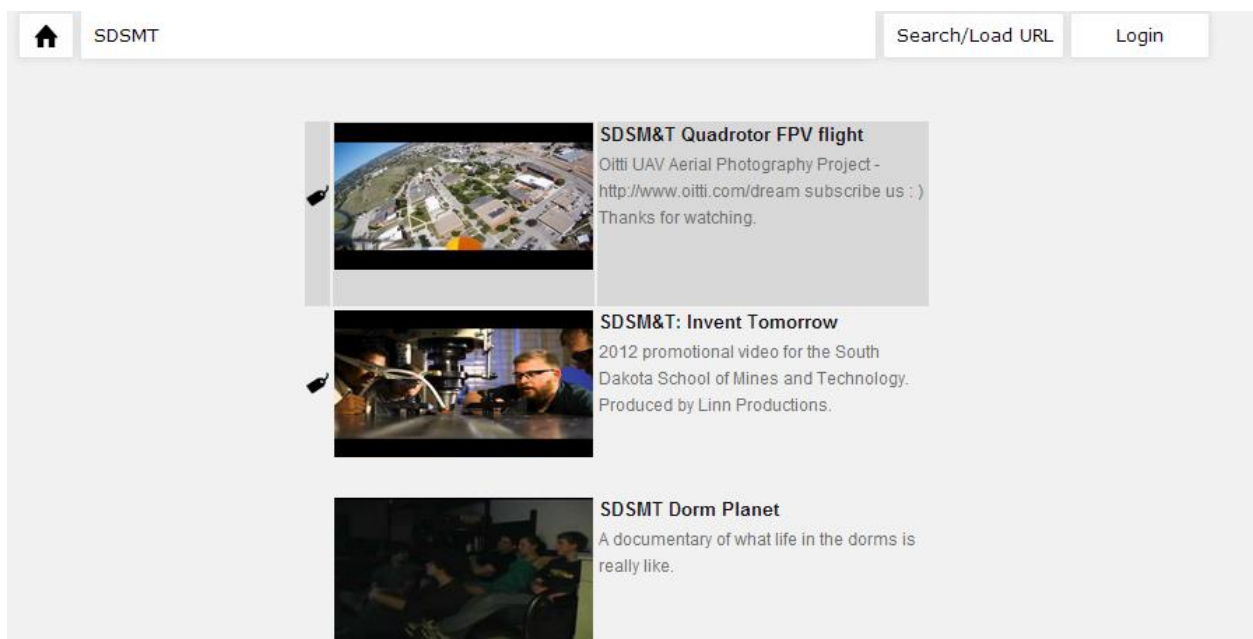

## Logout

Once the user is logged in he/she can logout by clicking the logout button within same dropdown menu as the login menu.

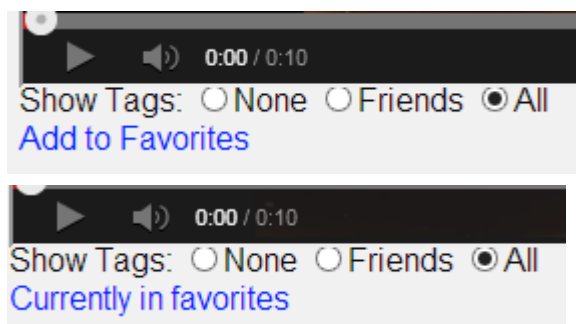

## Search

Using the search bar on the top of the application the user is able to search any video on YouTube. You can open a video by clicking on it.

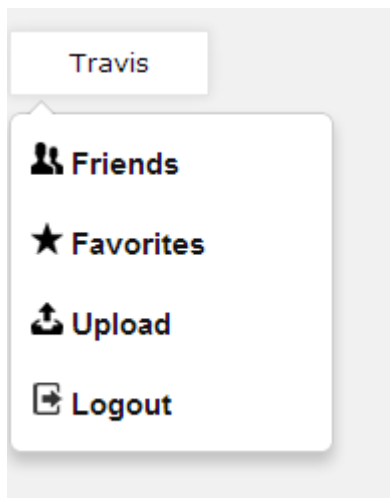

## Add to favorites

Once the video is loaded in the player you will see an “add to favorites button” that when you click on it, the add to favorites disappears. The next time you open the video you will see the unclickable button “Currently in Favorites”.

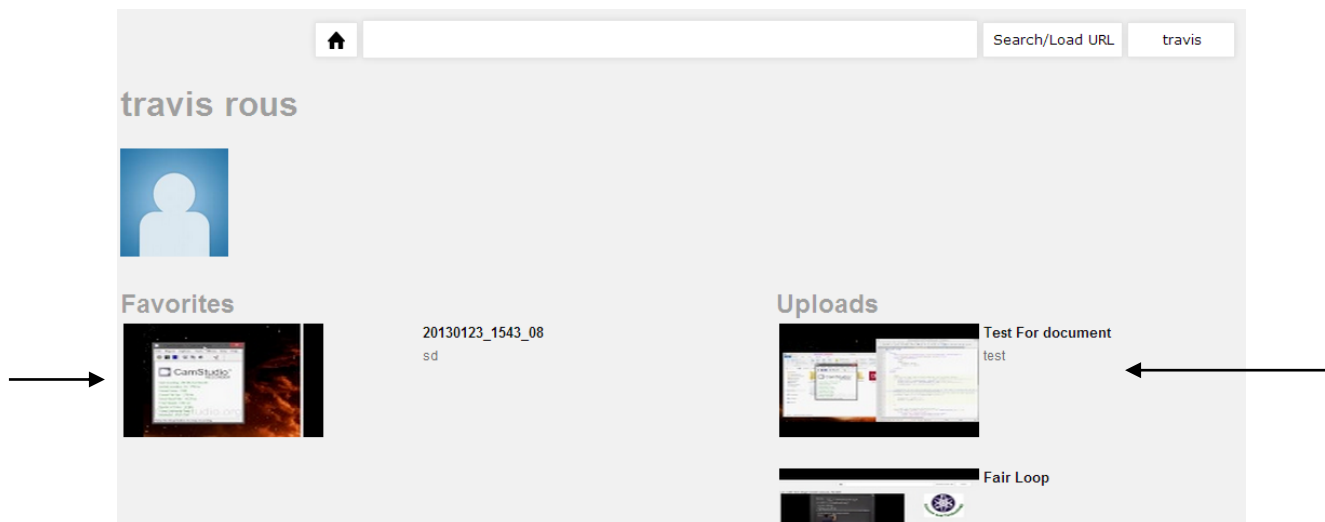

## Open a favorite or an upload

Open the favorites page by selecting it in the dropdown menu under your name.

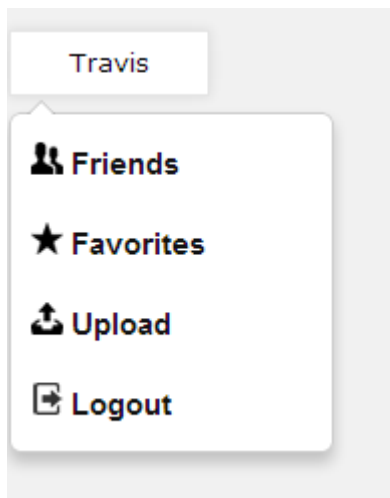

Then select the favorite or Upload that you wish to open in the player.

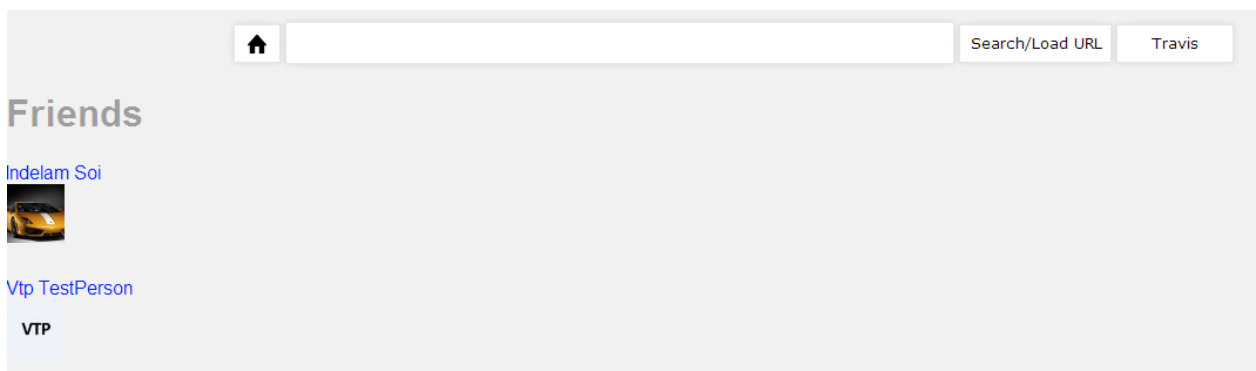

## Open a Friend

To open a friends page go to the dropdown menu and select Friends.

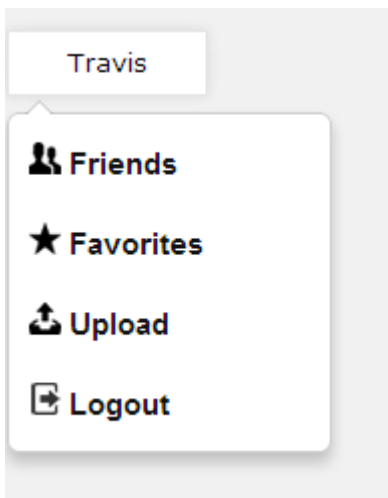

Once the page is loaded it show look something like this, here you can select the user that you want to view more in detail. The details will be seeing the users Facebook page as well as favorites.

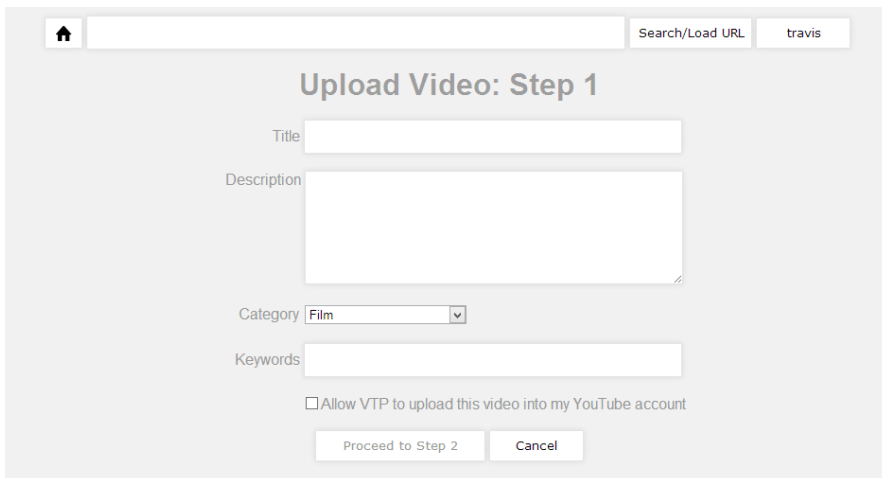

## Upload a Video

To upload a video you need to select the Upload button from the dropdown menu.

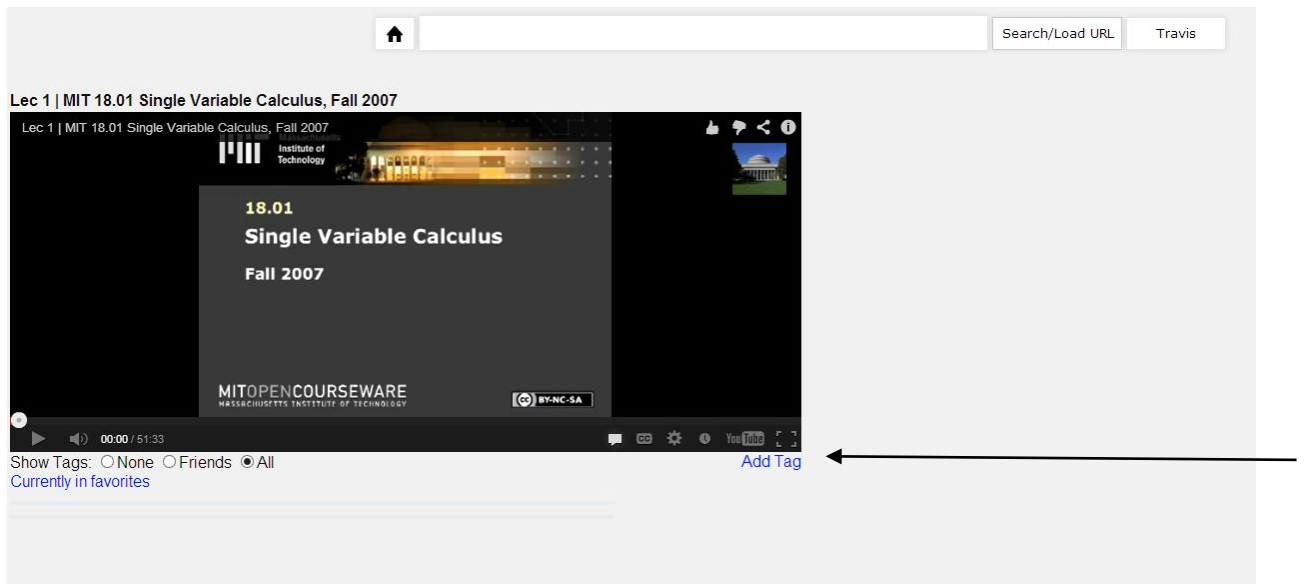

Now fill out the form and you will be able to choose a file to upload.

A screenshot of the "Upload Video: Step 1" form. The form has a header with a home icon, a search bar, and buttons for "Search/Load URL" and "travis". The main form area contains fields for "Title", "Description", "Category" (set to "Film"), and "Keywords". There is a checkbox labeled "Allow VTP to upload this video into my YouTube account". At the bottom are two buttons: "Proceed to Step 2" and "Cancel".

## Adding tags to a video

To add tags to a video open the video in the player, by doing a search or loading from favorites.

In the player there is an add tag button to click that opens the tag adding mechanism.

A screenshot of the "Add Tag" form. The form has fields for "Start Time" (0:0:0) and "End Time" (0:0:0), each with a "Use Current Time" button. The "Type" field has radio buttons for "Comment", "Image" (selected), "Map", and "Web Link". The "Source" field has radio buttons for "Web" (selected) and "My Computer". The "Link" field contains the text "http://example.com/01.jpg". At the bottom are "Preview", "Save", and "Cancel" buttons.

To add the times you need to make the video player get to the point in the video in which you want to grab the time, then click "Use Current Time". After getting the timings the user only needs to fill out the rest form click save. Then the page will reload with the new tag added.
