Anudeep Potlapally
Travis Rous

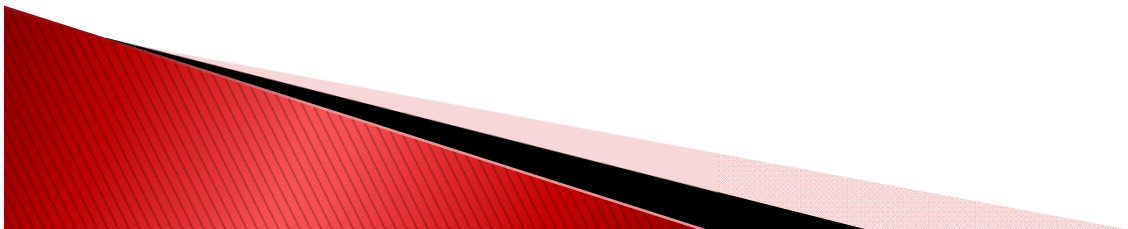

Client/Company

- ▶ Nick Newell
- ▶ EchoStar

Project

- ▶ Web-based application
- ▶ Video Sharing/Social Networking

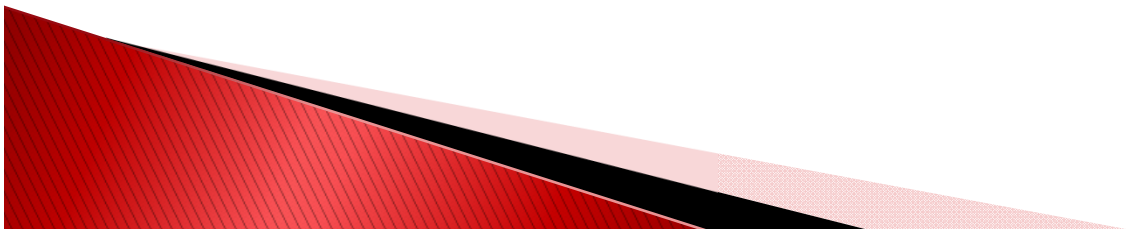

Passed Sprints

▶ Sprint 1:

- Very Simple prototype

▶ Sprint 2:

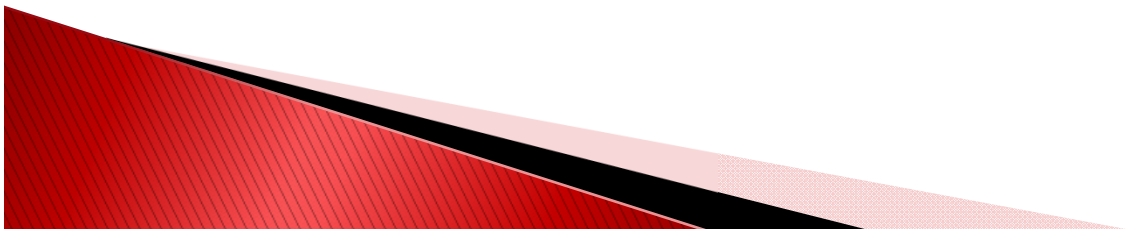

- Research and contact Google
- Database Design
- Integration of Popcorn.js
- Creating a Favorites page
- Login via Google and Facebook
- Error log

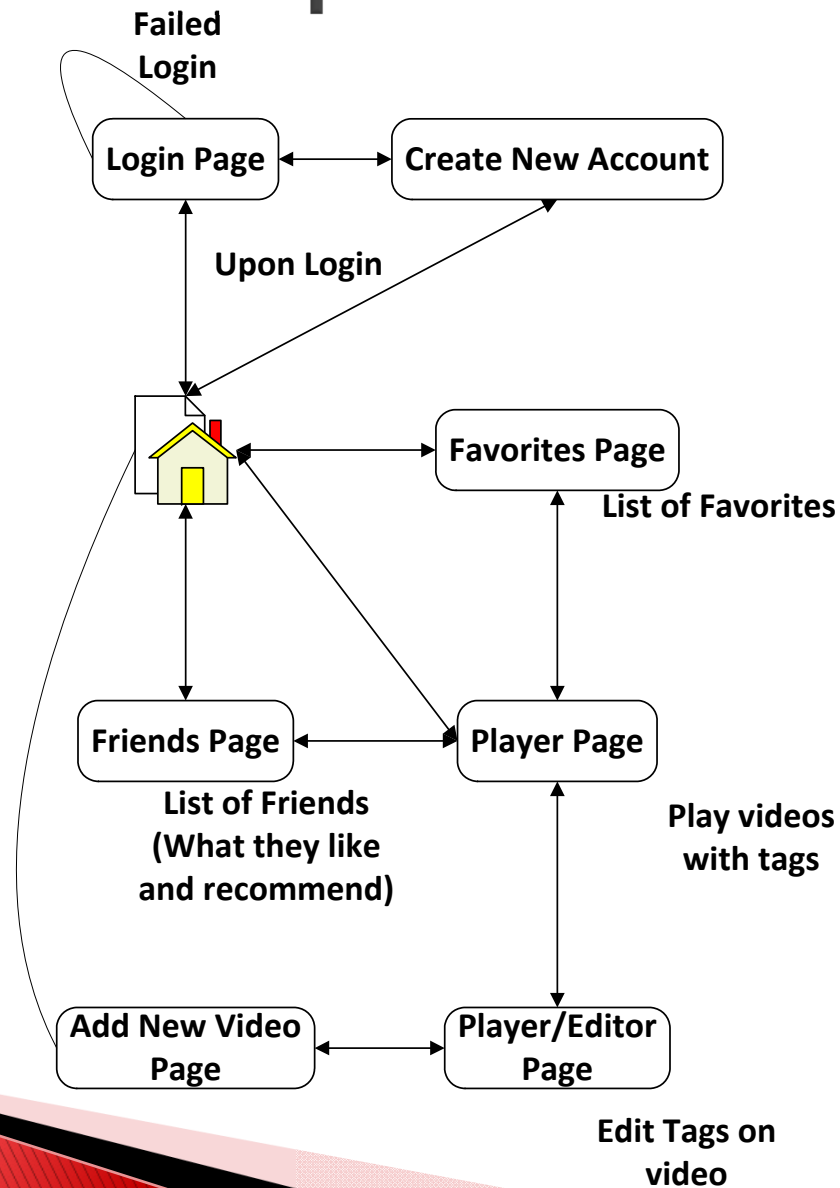

Current Sprint

▶ Sprint 3

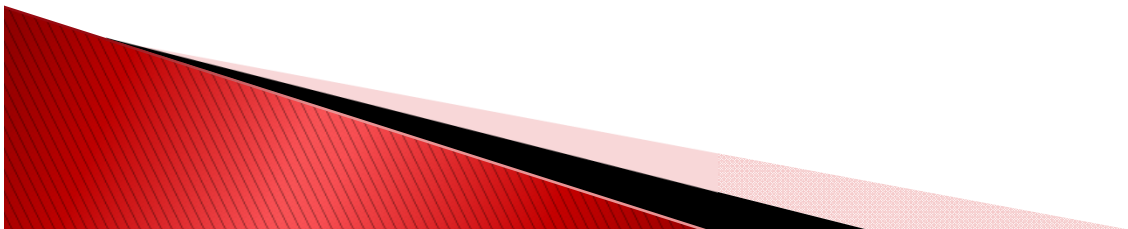

- Adding image tags to database for video
- Continued work on favorites page
 - Uses database to get information to populate based on the current user.
- Still waiting on Google

Website Map

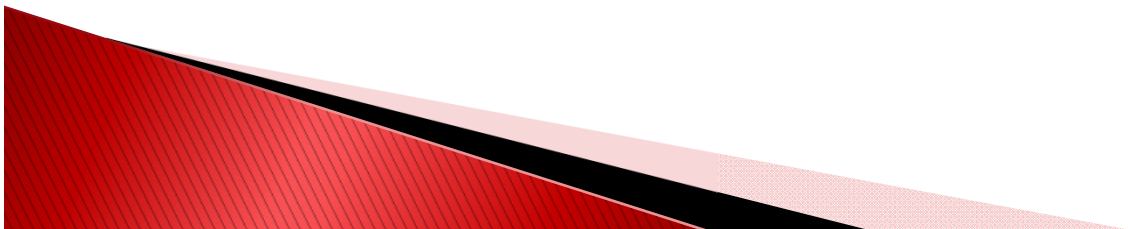

Current Prototype

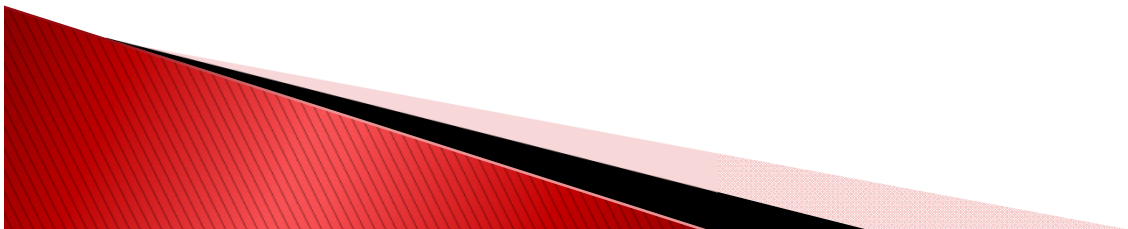

Goals Met

- ▶ Play YouTube
- ▶ Login
- ▶ Add Image Tags
- ▶ Favorites
- ▶ Database

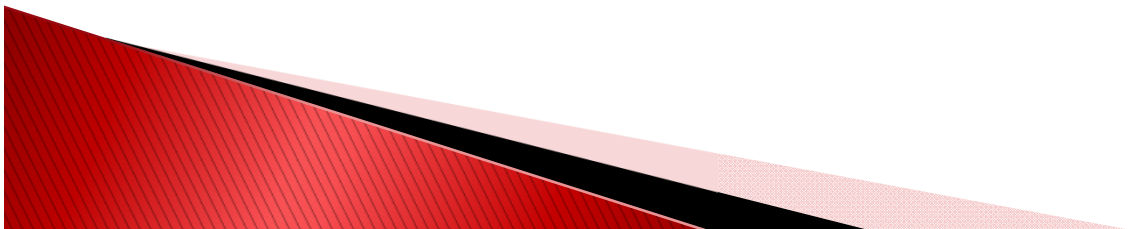

Issues & Problems

- ▶ Searching and Storing videos in YouTube
 - Waiting on YouTube Data API Approval.
- ▶ Accessing friends lists of Google Users.
- ▶ Privacy issues on Tag information

Remaining Backlog

- ▶ Just some of the major ones...
 - Play videos from Vimeo
 - Implement other Tags
 - Filtering the Tags
 - Finalizing the Database
 - GUI Design
