Travis Rous

Industrial Experience Report

ITS work for South Dakota School of mines and technology (SDSM&T).

Duties included writing scripts, removing viruses from computers, providing customer service support to various computer problems, setting up computers for new users, and various hardware replacements.

Duration: May, 7 2012 to March, 15 2013

CHR Solutions (internship)

Duties include mostly learning how the current database system works so that I can help in the redesign of the SQL database. This internship is only a brief time until summer when I start full time with the company.

Duration: March, 18 2013 to present.
